INTRODUCTION

This guide will show you how to remove and replace the battery.

Step 1 — Battery

- Make sure the laptop is unplugged and powered off.

- Locate the battery latches on the underside of the laptop.

Step 2

- Slide the right latch to the right until you hear it lock into place.

- Slide the left latch to the left and hold it.

Step 3

- Slide the battery out towards you.

To reassemble your device, follow these instructions in reverse order.
