# INTRODUCTION

Is your phone frozen? Do you need to change the battery? This guide will show you how to remove the battery in order to fix these issues.

## Step 1 — Battery

- On the back of the phone, locate the tab with the down arrow.
- Using your finger, press the tab and slide the back cover down to release it from the phone.

## Step 2

- Inserting your finger in the recess at the top edge of the battery, pull the battery away from the housing to remove it.

To reassemble your device, follow these instructions in reverse order.
