INTRODUCTION

Many of the replacement guides for this model will be internal parts that are accessed by first removing the back access panel. Removing this part is very simple; the only tool needed is a small Philips screwdriver to remove three screws. Removing this part gives access necessary for future guides.

⚙ TOOLS:

- Phillips #0 Screwdriver (1)

Step 1 — Back Access Panel

● Remove the three 6mm Phillips #0 screws holding the back access panel on.

Step 2

● Slide the cover toward you to unlatch it.

● The edge of the panel will slide away from the laptop so it can be lifted.
