Replacing The PODZ Port

This is guide shows how to remove the PODZ port on the Ion Air Pro.

Written By: Christopher Brandl

INTRODUCTION

The PODZ port is located on the back face of the Ion Air Pro. This port allows the WI-Fi PODZ Pack accessory to be installed.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Rear Cover PODZ Port

- Remove the 6 screws securing the lens cover bezel using a #00 Phillips screwdriver. This will allow you to remove the bezel and lens cover.

Step 2

- Remove the metal camera body cover by sliding it toward the lens end of the camera.

Step 3

- Remove 2 screws on the bottom of the camera body using a #00 Phillips screwdriver.

Step 4

- Remove the 3 screws that secure the camera to the body using a #00 Phillips screwdriver.

Step 5

- Use a plastic pry tool to remove the plastic ring covering the rear screws.

Step 6
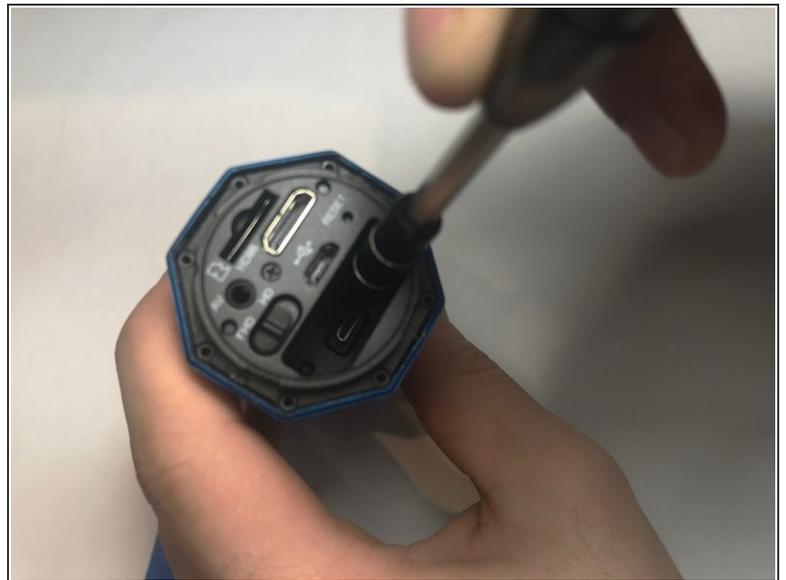

- Remove the 8 screws around the perimeter of the back cover.

- Remove the 2 screws in the PODZ port.

| |

Step 7

- Slide PODZ port out of the camera body.

- Disconnect ribbon cable from the back of the PODZ port.

To reassemble your device, follow these instructions in reverse order.
