INTRODUCTION

This guide will take you through the steps to remove your Dell Latitude D430's battery. Make sure your laptop is completely turned off and unplugged from a power source. Before starting make sure you are wearing an anti-static wrist band or working in an uncarpeted area because static shocks may damage your components.

Step 1 — Battery

- Turn the laptop over and make the bottom of the laptop face up.
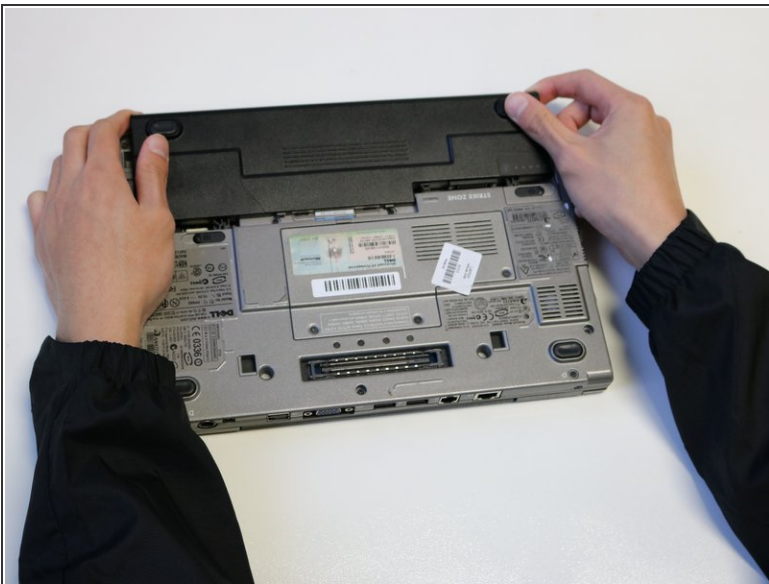

Step 2

- Place your fingers on the black latches indicated in the picture.

Step 3

- Side them until you hear a click.

Step 4

- Place both hands over the edge of the battery and pull up.

To reassemble your device, follow these instructions in reverse order.
