

# Shark ION Robot S87 Brushroll Replacement

Replace a worn brush on your Shark ION Robot S87.

Written By: Trevor Davies

## INTRODUCTION

Replacing the main brushroll on your Shark ION Robot S87 will help it clean like when you first got it, as the brushroll can wear out over time. This guide can also be followed to remove your current brushroll to clean it rather than replace it.

### PARTS:

- [Replacement Brushroll](#) (1)
  - [Replacement Brushroll Door](#) (1)
-

## Step 1 — Brushroll

- ⚠ Make sure device is turned off before attempting this replacement.
- Push clips in and push roller door upwards.

## Step 2

- Lift roller door out of brush roll housing.

### Step 3

- Remove the roller by pulling away from the motor and up.

To reassemble your device, follow these instructions in reverse order.
