This guide will walk users through replacing...

Written By: Amelia Jochem

## INTRODUCTION

This guide will walk users through replacing the Dell Latitude E6530 Hard Drive Port. Refer to the troubleshooting page before beginning replacement in order to clarify and identify the problem.

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)

### PARTS:

- [Crucial MX500 1 TB SSD](#) (1)
- [Crucial MX500 250 GB SSD](#) (1)
- [Crucial MX500 500 GB SSD](#) (1)
- [Crucial MX500 2 TB SSD](#) (1)

## Step 1 — Battery

- Flip the computer over so that the bottom panel is facing you.

## Step 2

- Slide the switches away from each other to release the battery.

### Step 3

- Using your hands, gently remove the battery from the device.

### Step 4 — Hard Drive

- Using a Phillips #00 screwdriver, unscrew the two screws.

## Step 5

- Gently remove the hard drive.

## Step 6

- Undo the Phillips #1 screw keeping the drive in the bracket.

## Step 7

- Remove the drive from the bracket,

To reassemble your device, follow these instructions in reverse order. Refer to the troubleshooting guide and additional links for more information if issue persists.
