INTRODUCTION

This guide will show you how to remove the plastic frame from the case and how to remove the scanner glass to be replaced. A little force will be necessary but with care, this guide will be fairly easy.
🔧 TOOLS:

- Spudger (1)

This document was generated on 2022-01-10 03:48:59 AM (MST).
Step 1 — Scanner Glass

- Slide plastic opening tool under the plastic.

- Gently pry the plastic framing off the glass.

- Repeat on the other side.

Step 2

- Remove the front plastic frame.

Step 3

- Wedge the plastic opening tool under the glass.

- Pull up against glass.

- Slide the glass forward.

- Remove the glass.

To reassemble your device, follow these instructions in reverse order.
