Step 1 — Joystick / Analog Stick

- **Remove the battery and memory card!**

Step 2

- **You have to remove seven screws.**

Step 3

- The front face-plate.

Step 4

- The plate with volume-start-home key flex.

Step 5

- **Be careful while removing the screen! Release the cables for screen and "volume-start-home keys"!**

Step 6

- **Insert wisdom here.**

Step 7

- Slightly lift the board and remove the joystick!

Step 8

- Now is the time for the new replacement part.

Step 9

- The assembling now is easy.

Step 10

- That's all. I hope I've been helpful.

To reassemble your device, follow these instructions in reverse order.
