

Dell Inspiron 1545 Base Cover Replacement

The Base Cover is responsible for protecting the inner components of the Dell Inspiron 1545 such as the CPU and RAM.

Written By: Nathan Lemay

INTRODUCTION

This guide will serve as a prerequisite for more advanced replacement guides, this base cover will rarely actually need to be replaced in it of itself.

TOOLS:

Phillips #1 Screwdriver (1)

Step 1 — Battery

- Before attempting to remove the battery ensure that the laptop is disconnected from all power sources and turned off.
 - Turn the laptop over to its back.

Step 2

 Slide the release latch while simultaneously pulling backwards on the battery.

Step 3

 Slide the battery out of the battery bay.

Step 4 — Base Cover

- Unscrew the four screws (3mm
 Phillips #1) that hold the base cover in place.
- i The screws are connected to the base cover by a washer anddo not remove from the base cover.

Step 5

Carefully lift the base cover vertically away from the laptop.

To reassemble your device, follow these instructions in reverse order.
