

Samsung Galaxy S4 Active Rear Facing Camera Replacement

Replacing a damaged or malfunctioning camera on the Samsung Galaxy S4 Active.

Written By: David

INTRODUCTION

In order to do this successfully, you will have to know how to remove up to the motherboard on the phone.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)

PARTS:

- [Samsung Galaxy S4 Active Rear Camera](#) (1)

Step 1 — Rear Case

- Pry with a plastic opening tool, or your fingernail, in the divot to the left of the rear-facing camera, near the power button.
- Lift the rear case by the corner nearest the divot and remove it from the phone.

Step 2 — MicroSD Card

- Use a plastic opening tool, or your fingernail, to press the microSD card slightly deeper into its slot until you hear a click.
- After the click, release the card and it will pop out of its slot.
- Remove the microSD card.

Step 3 — Battery

- Insert a plastic opening tool, or your finger, into the notch of the battery compartment and lift the battery upward to remove it.

Step 4 — SIM Card

- Use a plastic opening tool, or your fingernail, to press the SIM card slightly deeper into its slot until you hear a click.
- After the click, release the card and it will pop out of its slot.
- Remove the SIM card.

Step 5 — Midframe

- Use the tip of a spudger to remove the four metallic pads located in each corner of the device.
- Using a Phillips #00 screwdriver, remove the 12 screws connecting the midframe to the device.

Step 6

- Use the plastic opening tool to pry around the entire edge of the midframe now to release it from the front case.

Step 7 — Motherboard

- Use the flat end of a plastic opening tool to disconnect the USB board connector.
- Disconnect the front-facing camera cable connector.
- Disconnect the earpiece speaker assembly cable connector.
- Disconnect the headphone jack assembly cable connector.
- Disconnect the display/digitizer cable connector.
- Disconnect the antenna cable connector.

Step 8

- Remove the single 2.4 mm Phillips #00 screw from the motherboard assembly.

Step 9

- Remove the motherboard.

Step 10 — Rear Facing Camera

- Use the flat end of a plastic opening tool to disconnect the rear-facing camera connector.

To reassemble your device, follow these instructions in reverse order.
