🔧 TOOLS:

- iFixit Opening Tools (1)
- Phillips #0 Screwdriver (1)

This document was generated on 2020-11-28 04:15:01 AM (MST).

Step 1 — Back Panel

- Remove the two 1.2 mm Phillips #0 screws found at the side by the power button.
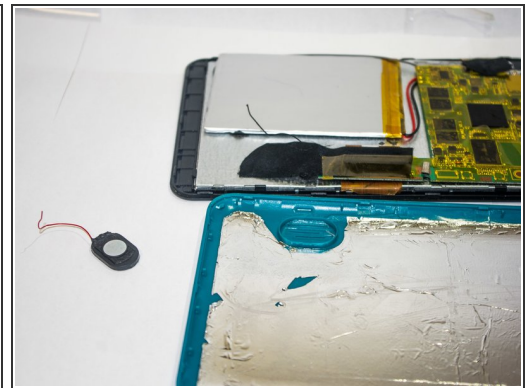

Step 2

- Using the plastic opening tool, insert it between the back panel and screen starting on the corner to the right of the power button side and begin separating the back cover.

⚠ Be cautious when opening the back cover as it is connected through fragile wires to the speaker.

Step 3

- Remove the speakers by using your hand to entirely disconnect the back cover.

To reassemble your device, follow these instructions in reverse order.
