Garmin StreetPilot C330 Outer Casing Replacement

How to replace the outer casing of a Garmin StreetPilot C330.

Written By: Adrian Leon

INTRODUCTION

This guide will help you replace the outer casing of your Garmin StreetPilot C330.

🔧 TOOLS:

- Spudger (1)
- Tweezers (1)
- Phillips #00 Screwdriver (1)

Step 1 — Outer Casing

- At the top of the outer frame, insert the plastic spudger into the groove in the center.

- Lever the frame gently until it pops out of the case.

Step 2

- Use a Phillips #00 screwdriver to remove the four screws around the screen.

Step 3

- Gently pull from both ends of the casing to separate the front and back panels.

⚠️ Do not force the pieces apart wider than the length of the connecting wires, or you will damage the wiring.

Step 4

- Gently unplug the white cable connector using either your fingers or tweezers.

Step 5

- Carefully expose both halves of the device.

⚠ Be sure not to pull the two halves apart further than the black wire can reach.

To reassemble your device, follow these instructions in reverse order.
