## Step 1 — Battery

- Power off your device.

- Insert a pin, paper clip, or very small piece of metal into the hole next to the micro SIM card holder to remove it.

  - ⓘ The SIM card slot is located on the top edge of the device.

## Step 2

- Using plastic opening tools, pry open the bottom of the device first.

- You will hear clicking sounds as the sides of the device detach from the screen.

- Once both sides are detached use the suction cup tool to remove the screen completely from the black casing.
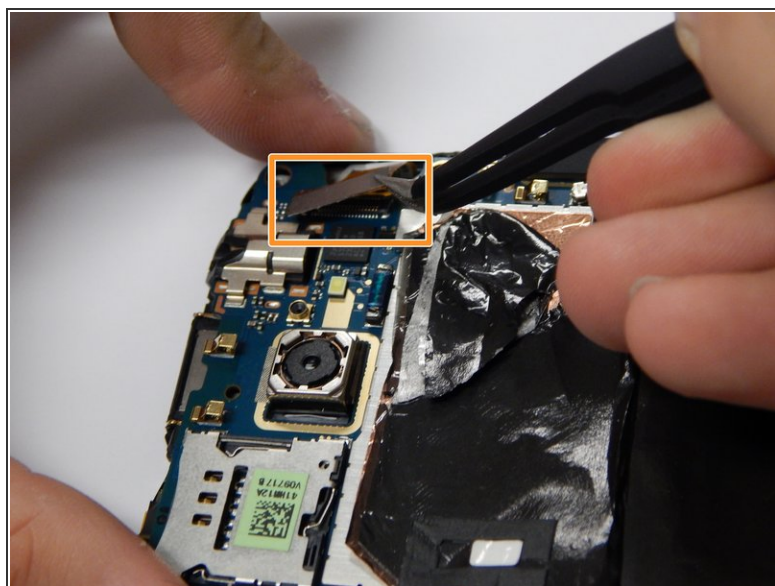

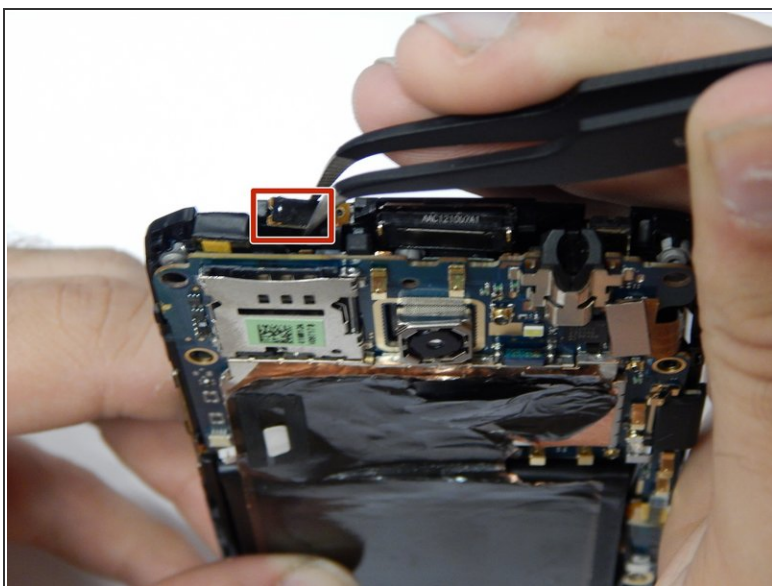

## Step 3

- Remove the five 2.4mm screws using a Phillips head screw driver and then remove the plastic cover.
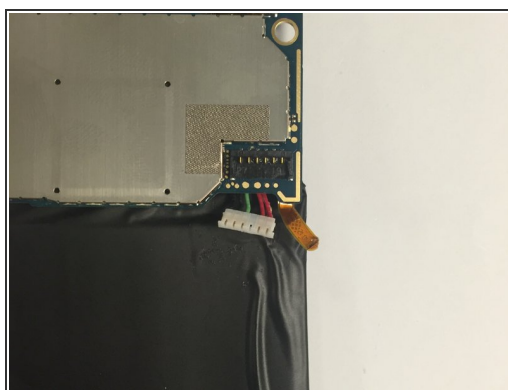

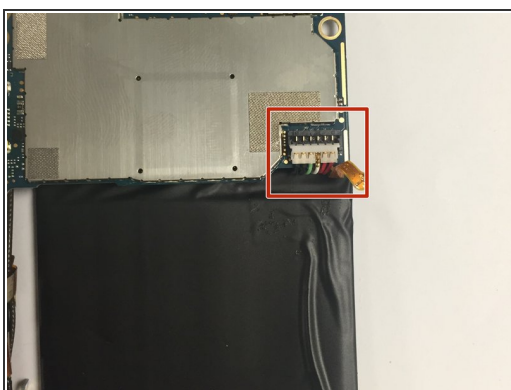

## Step 4

- Remove the two 3.4 mm JIS #000 screws from the PCB board.

- Remove the PCB board and antenna.

## Step 5

- Use tweezers to disconnect the power button flex cable.

- Disconnect the touch screen flex cable

## Step 6

- Disconnect the battery from the logic board by detaching the six pin connector.

- Remove the battery by pulling upwards.

To reassemble your device, follow these instructions in reverse order.
