

A close-up photograph showing a person's hand using a coin to pry open the bottom cover of a silver laptop. The hand is positioned on the left side of the frame, with the thumb and index finger gripping the coin. The coin is being used to lift a small latch or screw on the bottom cover. The laptop is lying flat on a white surface. The bottom cover is silver and has a rectangular panel on the right side with five small holes. The top cover is also silver and has a small latch on the right side. The laptop is a MacBook Pro, and the bottom cover is being removed to access the internal components.

介绍

只需要一个硬币就可以换下来电池啦！

工具：

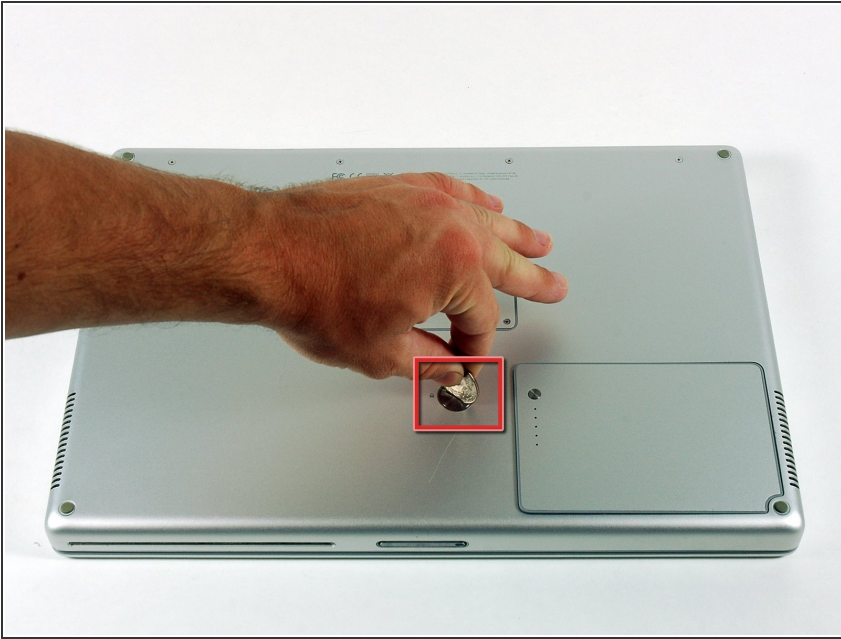

- Coin (1)

章节：

- G4 Aluminum 15" Replacement Battery (New) (1)

步骤 1 — 电池

- 使用一个硬币插入电池锁扣的凹槽内，然后顺时针旋转90度。
- 此时电池会被顶起一部分，可以很方便地把它从电脑上取下。

按照拆下电池的相反顺序就可以装上新电池。
