# INTRODUCTION

Is your laptop dying at a rapid pace no matter what you do? Replacing your battery takes virtually no time and is done in only a few steps. No tools are required and anyone can replace the battery.

## Step 1 — Battery

**⚠ Make sure your device is powered off and unplugged to avoid electric shock.**

- Place your device upside down with the bottom panel facing upwards.
- Orient the device so the battery is away from you as shown

## Step 2

- Unlock the battery by sliding the lock switch to the right.
- Locate the release latch. Slide the latch to the left to remove the battery from your laptop.
- ⓘ Be sure to lift up on the battery while you slide the latch to the left.

## Step 3

- Remove the battery from your laptop.
