

Nokia 8265 Battery Replacement

How to replace a dead or drained battery for the Nokia 8265 Cell Phone

Written By: Jack

Step 1 — Battery

- Start by taking off the back, so that you expose the back of the phone/battery like this.

Step 2

- Next, take out the battery, by leveraging it out, towards the bottom of the phone. You can use your fingers to do this part.

Step 3

- Now the battery is out!

To put the battery back into the phone, follow these instructions in reverse order.
