## Step 1 — Back Cover

-  Make sure you turn off your phone before starting.
- Heat the phone using a heating pad, heat gun, or hair dryer to loosen the glue. You just need to heat the back of the phone.
-  You can also use a hair dryer or a heating gun for this step.

## Step 2

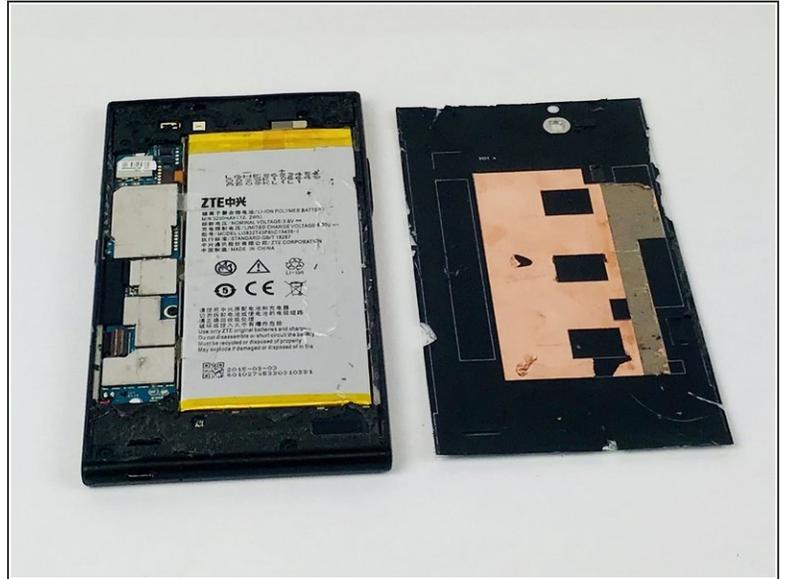

- After the phone is heated, use the blue plastic opening tool on both sides of the phone.

⚠ Don't apply too much pressure because the cover can crack easily.

ⓘ To avoid that your cover cracks, you can add tape to back cover.

ⓘ You can use a suction cup to help remove the battery.

## Step 3

- Carefully remove the cover from the phone.

To reassemble your device, follow these instructions in reverse order.
